

Turn Fleet Maintenance Costs into Real Savings

You know that forklift maintenance costs affect your bottom line. But, did you know that how you manage those costs could affect it even more? Crown's Connected Solutions help you turn those costs into savings with the FleetSTATS® Fleet Maintenance Management System which captures and analyzes costs for just one lift truck or an entire fleet – even across multiple locations – to help you identify opportunities for significant cost savings, improved processes and increased uptime.

Collect Data Consistently

- Data collection is crucial to gaining a clear view of how maintenance contributes to your total cost of ownership. With FleetSTATS, this process is **simplified, paperless, automated, and accurate**.
- With consolidated invoicing and 24/7 access to parts, service and rental costs down to the individual lift truck, you'll have **complete visibility** into every component of your lift truck maintenance cost, not to mention a streamlined approach to processing invoices across your entire fleet.

Compare Results

- With FleetSTATS, you'll have multiple ways to **evaluate your captured data**. Benchmark cost and performance between individual trucks or multiple locations. Correlate parts quality and replacement cost to repair frequency. Analyze rental costs and identify seasonal trends. Even assess your results against broader industry performance data.

Make informed decisions that can improve your bottom line.

Control Processes

- FleetSTATS provides a path for ongoing success by helping you utilize the information gathered to **identify process improvement opportunities** that increase efficiency and reduce cost. FleetSTATS offers a wide variety of plans that are scalable to fit your specific requirements.
- **Optimize plans and pricing** by location or standardize parts, labor and maintenance program rates across your entire fleet. The system **tracks operator error spend, identifies new training possibilities, and can flag not to exceed limits.**

Capitalize on Opportunities

- FleetSTATS will provide you with the tools and data you need to **manage your fleet, reduce maintenance cost and improve fleet performance.** You'll better understand how your forklifts are utilized, gain insight into total lifecycle cost and make informed decisions regarding repair versus replacement. You'll accurately forecast rental needs based on real data. And, when more expertise is needed, take advantage of Crown's consulting services gained through managing thousands of lift trucks and maintenance programs worldwide.
