

Dock & Door

Products and Services

Your Complete Partner In Dock & Door Equipment & Service

High Speed Doors

- Available for outdoor, indoor, freezer and cleanroom applications
- Up to 8' per second opening speed
- Automatic self-reinserting

Popular Products

- Products designed to improve safety and efficiency
- Guard rails and impact barriers
- Dock bumpers and column protectors

Trailer Restraints

- Restraint carriages automatically position on trailer contact
- Automatic pushbutton operation activates hook to engage trailer bumper
- Electromechanical brake requires no maintenance or adjustment

HVLS Fans

- Fans create an energy efficient environment by moving more air
- Helps keep employees comfortable year-round
- Adds efficiency in winter by redistributing heat trapped near the ceiling

Bug Doors

- Mount to existing overhead door track
- Fine wire mesh helps keep out bugs and other pests

Sectional Doors

- Insulated and non-insulated models available
- Large inventory of complete doors and replacement panels available

Scissor Lifts

- Surface and put mounted styles provide an excellent solution for variable trailer heights
- Wide range of platforms and lift heights will accommodate most forklift and pallet truck sizes

Seals & Shelters

- Rigid, soft sided and flexible frame shelters available
- Foam style dock seals with variety of fabrics available to fit any application

Rolling Steel and Fire Doors

- Provide security for interior and exterior applications
- Insulated and non-insulated models available

Dock Levelers

- Structural steel support members
- Simple pushbutton operation
- Integral velocity fuse with retractable lip cylinder

Aftermarket Parts

- Extensive inventory of spare parts for many dock equipment manufacturers
- Products include hold down assemblies, overhead door panels, bumpers, springs and more

Preventative Maintenance, Installation and Service

- Complete turnkey installation and project management for all of our products
- Free site surveys and consultation to help you select the right solution, followed by ongoing reviews to ensure you're provided the service you deserve
- Most sizes and styles are stocked and available to quickly repair and secure your facility
- Each service van carries more than \$5,000 in replacement and repair parts
- Concrete work to repair dock pits, dock walls and wall panels
- Cutting of dock pits, door openings and ground to dock ramps
- Cost-effective planned maintenance programs are available
- Fire door drop testing always available

crown.com

You can count on Crown to build lift trucks designed for safe operation, but that's only part of the safety equation. Crown encourages safe operating practices through ongoing operator training, safety-focused supervision, maintenance and a safe working environment. Go to crown.com and view our safety section to learn more.

Because Crown is continually improving its products, specifications are subject to change without notice.
