

TSP SERIES

SET A NEW PACE IN YOUR OPERATIONS.

When it comes to running your warehouse, everyday is a race to move more product, optimize operator productivity, and maximize truck performance.

See how the Crown TSP 6500/7000 series turret trucks helps you win by reaching higher, going faster, saving energy and by giving operators more control than ever.

Discover how the TSP 6500/7000 Series can take you higher.

Go Higher

The mast is the backbone of any turret truck. With the Crown Mono-Lift mast, rock-solid stability is delivered all the way to 675".

Move Faster

With the TSP 6500/7000 Series, you can expect breakthrough speeds and energy savings:

- 120 ft/minute
- 7.5 miles/hr travel
- 15% bonus energy

Take Control

Comfortable and confident operators are more productive. The exclusive Crown MoveControl Seat positions the operator for the right task, every time.

Do More

Crown turret trucks have the versatility to solve many warehouse challenges:

- Push Back Rack
- Case Picking
- Long Loads
- Freezers

Keep Going

Crown turret trucks combine durability and innovative technology for more uptime, easier service and lower operating costs.

TSP 6500/7000 - The new standard in through-put.
