PRODUCTS & SERVICES
At Crown, our commitment to innovation means we continually look for ways to advance the design, manufacture and support of material handling solutions that help provide excellent performance. We promise our customers a premium experience that comes through:

- Crown’s dedicated, global material handling team
- A wide range of lift trucks that are safe, efficient and ergonomic
- Advanced technology integrated within our lift trucks and beyond
- Comprehensive support for improved total cost of ownership.

Proven Trucks
- Lift trucks ideal for nearly any job
- Performance in the warehouse and beyond
- A forklift design leader recognized with more than 100 global awards

Advanced Technology
- Consistent technology across all Crown lift trucks
- Integrated, real-time data to drive performance
- Management dashboards and detailed reporting

Dedicated Professionals
- Global, highly trained sales force
- Material handling technology expertise
- Dependable, capable support for critical logistics decisions

Complete Support
- Integrity Parts and Service System™
- End-to-end support for remarkable ROI
- Incredibly low total cost of ownership

For the complete product line
Crown is one of the world’s largest lift truck manufacturers, and supports customers in 84 countries through five regional headquarters. Distinguished by innovative product design and a collaborative approach to customer service, our knowledge of material handling practices and restrictions enables us to provide customers with outstanding solutions, locally and globally. From design to delivery and beyond, you can expect exceptional value from Crown.

Our extensive sales, distribution and service network is anchored by hundreds of retail locations throughout the world, focused on building local relationships that ensure a consistent customer experience no matter the customer size or location.

Crown solutions are available through an extensive retail network that provides sales and service in locations throughout Latin America and the Caribbean.

Crown’s extensive network of field service technicians is supported by millions of parts to ensure an outstanding first-time fix rate designed to keep our customers’ operations running.

Crown’s Global and North American headquarters remain in New Bremen, Ohio, where the company originated, with facilities that incorporate the latest technologies while preserving the town’s past.

Local Presence

Crown locations and dealers are equipped to provide local service and support for every major market in Latin America and the Caribbean. With local expertise and familiarity with regional requirements, Crown can provide specific products and material handling solutions designed to fit your application requirements.
For low-level order picking applications, the QuickPick™ Remote System uses wireless technology to remotely advance the truck. By reducing the number of times the operator gets on and off the truck, QuickPick Remote helps promote safety, reduces operator fatigue and boosts productivity, saving up to five seconds per pick.

Auto Fence, available on TSP models, increases consistency and pick accuracy in very narrow aisle applications, boosting productivity by taking a more effective route to the next pick position. Includes Auto Fence.
Lift Trucks for Most Any Application

Crown lift trucks support a wide range of demanding applications in warehouse, manufacturing and distribution.

Dock Work
Maneuverability is key in exacting dock work. That’s why Crown lift trucks are designed to make tight turns and give operators precise control.

Order Picking
Speed and ease are paramount in demanding order picking situations. Crown lift trucks are designed to expedite each task and get more work done.

Transport
Speed and durability go full force for applications that require transport of loads within the warehouse or in preparation for movement outside the warehouse.

Rack Storage
Crown lift trucks support rack storage applications with precise operator controls to help ensure fast, easy and safe inventory movements.

Narrow Aisle
Crown’s leadership in narrow aisle applications means customers can count on lift trucks that make the most of every inch.

Very Narrow Aisle
Tight aisles and soaring heights are familiar territory for Crown lift trucks. We have years of experience supporting efficient operations.

Bulk Storage
Big, heavy loads rely on the strength of Crown lift trucks. Operators rely on the exceptional precision and control provided by Crown’s Intrinsic Stability System.

Outdoor
Crown’s IC forklifts are designed to perform indoors and outdoors. Built to withstand tough environments, Crown’s IC trucks won’t let you down.

Lift Truck Selector Guide

This product selector guide is designed to assist you in identifying the appropriate lift truck solutions for your operation, application and tasks.

Counterbalance Forklifts

Counterbalance forklifts are designed to handle a wide variety of material handling tasks and can be customized with a range of load-handling attachments. No matter which Crown counterbalance forklift is selected, customers experience strength and durability for the long run.

FlexRide™ Adjustable Floorboard
This feature offers improved shock and vibration protection compared to a conventional floorboard and also includes a weight adjustment feature to fit operators of different sizes.

Available on RC 5500 Series

Confidence Built-in
Crown’s Intrinsic Stability System proactively monitors and communicates real-time information to support truck safety and reliability. Paired with the Crown-built AC motors and planetary drive units, it creates a powerful combination that boosts operator confidence with every move.

RC 5500 Series
Tire: Cushion  
Power: Electric 36V  
Load Capacity: 1360 to 1800 kg  
Lift Height: 3910 to 7010 mm

SC 5200 Series
Tire: Cushion  
Power: Electric 36/48V  
Load Capacity: 1360 to 1800 kg  
Lift Height: 2895 to 7010 mm

RC 5500 Series
Tire: Cushion  
Power: Electric 36V  
Load Capacity: 1360 to 1800 kg  
Lift Height: 3910 to 7010 mm

SC 6000 Series
Tire: Pneumatic (Super Elastic)  
Power: Electric 48V  
Load Capacity: 1300 to 2000 kg  
Lift Height: 2895 to 7490 mm

Power: Electric 36/48V  
Load Capacity: 2000 to 3000 kg  
Lift Height: 3200 to 7925 mm

PC 5200 Series
Tire: Cushion  
Power: Electric 36/48V  
Load Capacity: 2000 to 3000 kg  
Lift Height: 3200 to 7925 mm

CROWN PRODUCTS & SERVICES 10
Counterbalance Forklifts

Crown offers IC lift trucks that offer real uptime and lower total costs—even in the toughest application environments. For example, the C-5 Series provides more uptime and power over other conventional lift trucks, from the brickyard to the warehouse.

**On-Demand Cooling™**
With On-Demand Cooling (ODC), the C-5 Series remains cool and clear even in the dirtiest environments. At every start-up, airflow is automatically reversed so debris is blown clear.

**Dual Core Radiator**
Temperature management is further supported with a dual open-core radiator that provides separate cooling for the engine and transmission for better long-term performance.

**Industrial Engine**
Crown’s LPG powered 2.4 liter industrial engine is designed for the toughest applications and reduces maintenance with 4X fewer oil change requirements.

**Power Brakes**
Crown’s exclusive Power Brake System delivers durability and performance advantages, and virtually eliminates brake maintenance.

**C-Series**
- Tire: Cushion
- Power: Internal Combustion - LPG
- Load Capacity: 1814 to 2948 kg
- Lift Height: 4368 to 7010 mm

**C-G Series**
- Tire: Cushion
- Power: Internal Combustion - LPG
- Load Capacity: 3175 to 5443 kg
- Lift Height: 2997 to 6045 mm

**C-S Series**
- Tire: Pneumatic (Super Elastic)
- Power: Internal Combustion - LPG
- Load Capacity: 1814 to 2948 kg
- Lift Height: 4368 to 7010 mm
Reach Trucks

Rider Reach Trucks are generally used in narrow aisle applications where storage density and material handling productivity requirements are high.

**Monolift™ Mast**
This innovative mast design offers excellent rigidity—all the way to 12,825 mm—and substantially greater load capacity at height.

**Xpress™ Lower**
The Xpress Lower feature increases lower speeds so the operator spends less time waiting for the load to lower and more time moving pallets.

**Regenerative Lower**
The RM 6000 Series carefully uses energy and gives it back as the mast is lowered—extending battery.

**Traction Control**
OnTrac™ Anti-Slip Traction Control reduces tire spin and improves control.

---

**RM 6000 Series**
- Load Capacity: 2000 kg
- Lift Height: 4875 to 10160 mm

**RMD 6000 Series**
- Monolift™ Mast Deep Reach
- Load Capacity: 1450 kg
- Lift Height: 4875 to 10160 mm

**RM 6000S Series**
- Load Capacity: 2000 kg
- Lift Height: 4875 to 10160 mm

**RMD 6000S Series**
- Monolift™ Mast Deep Reach
- Load Capacity: 1450 kg
- Lift Height: 4875 to 12825 mm

**ESR 5200 Series**
- Load Capacity: 1400 to 2000 kg
- Lift Height: 2760 to 13000 mm

**RR 5700S Series**
- Load Capacity: 1450 kg
- Lift Height: 5025 to 11225 mm

**RD 5700S Series**
- Deep Reach
- Load Capacity: 1450 kg
- Lift Height: 5025 to 10160 mm

**RR 5700 Series**
- Load Capacity: 1600 & 2000 kg
- Lift Height: 5025 to 10160 mm

**RD 5700 Series**
- Deep Reach
- Load Capacity: 1450 kg
- Lift Height: 5025 to 10160 mm
Very Narrow Aisle Trucks

Very Narrow Aisle Trucks are used in very narrow aisle applications, such as order picking and stock replenishment, where the operator must be elevated to perform the task.

MoveControl™ Seat
Comfortable and confident operators are more productive. The Crown MoveControl Seat positions the operator for the right task.

Top Battery Access
Ergonomic easy-top battery access eliminates the difficulty of removing batteries to perform routine maintenance.

Visibility
Clear vision is the foundation of operator confidence. With a large viewing window, the SP Series helps operators be more productive.

The Wave™ Work Assist Vehicle™
Customers benefit from the Wave Work Assist Vehicle’s ability to smoothly move up and down while traveling for better, faster order picking and put-away.

Order Pickers
Crown can optimize your order-picking process—both on the ground and at high elevations. Excellent driving performance, stability and industry-leading ergonomics allow operators to work productively and confidently.

- TSP 6500 Series (shown)
  - Turret Stockpicker

- WAV 60 Series
  - Work Assist Vehicle
  - Load Capacity: 135 kg operator, 90 kg load tray, 115 kg load deck
  - Platform Lift Height: 2995 mm

- MPC 3000 Series
  - Order Picker with Mast
  - Load Capacity: 1179 kg
  - Lift Height: 797 to 4292 mm

Available with:
- Auto Positioning System
- Auto Fence
- QuickPick Remote System
Stackers

Stackers are used in applications where loads can be stored above floor level and when minimal travel distances are the norm.

X10™ Handle

Crown’s X-10 Control Handle provides easy access to 10 control and safety features within reach throughout the work cycle.

Exceptional Visibility

The sloped, low-profile power unit cover, center-mounted handle and clear mast design provide operators an exceptional all-around view.

Pallet Trucks

Pallet trucks are used in a wide range of floor-level applications. They provide a reliable, economical material handling solution.

Rugged and Powerful
A Crown-designed and -built drive unit has a powerful AC drive motor, robust in-line spur gears, and is top-and-bottom-mounted to provide power and durability.

Guaranteed Durability
A heavy-duty undercarriage and power unit provide the rugged durability customers demand.

Integrity Parts and Service System

Crown’s Integrity Parts and Service System is built on a system of performance to support a low total cost of ownership. This system is characterized by parts availability, factory support and trained technicians. Crown provides the resources and expertise to help maintain the performance and value of its lift trucks for the long haul.

V-Force™ Battery and Charger Options
A full line of battery and charger options and support is available through Crown’s dealer network.

The integration of parts and service enables Crown to rapidly provide—and replace—parts and maintenance solutions that translate to uptime, all the time.

Crown Integrity Parts System™
The value of the Crown Integrity Parts System becomes apparent with each Crown lift truck—longer parts life, less downtime, easier and faster part replacement, lower labor costs, a longer life and higher performance.

Trust a respected lift truck manufacturer over a look-alike parts supplier to provide a long-term performance advantage for your lift trucks.

Crown Integrity Service System
Crown has made substantial investments in engineering, technology and our people to provide expert assistance from our customer call center representatives, as well as excellent service support, warranty coverage and reliable parts.
Comprehensive Training

Learn from the experts. Crown can help you in your effort to provide a safe and productive powered industrial lift truck work environment with training products and services for your operators, trainers, supervisors, technicians and even your workplace pedestrians. Available through our regional training centers and retail branches located throughout North America, Crown’s forklift training programs can help you promote performance, encourage safety and reduce your total cost of ownership.

The Most Important Factor is You

Crown lift trucks are designed with safety top of mind, but a lift truck is only as safe as its operator. That's why we not only build safe lift trucks, but also provide excellent, comprehensive training programs.

Crown Encore™ Lift Trucks

With comprehensive repair and replacement and the assurance of an industry-leading warranty, Crown’s Encore Lift Trucks provide guaranteed performance at a competitive price.

- Repair and replacement
- Complete reconditioning
- Finishing and inspection

As a global leader in material handling, Crown has the responsibility and the opportunity to make a difference. We believe this difference starts with our sustainability promise, processes and products.
