

CROWN

C-D

4,000–7,000 lb Capacity

Diesel Pneumatic Tire

Strength and Refinement

With a durable heavy-duty chassis, dependable diesel engine and refined ergonomic cabin, the Crown C-D Series diesel pneumatic tire forklift is ready to work hard all shift long. The C-D Series also complies with the latest North American Tier 4 exhaust emission regulations.

Its wide range of standard and optional product features makes it an ideal choice for virtually any IC material handling environment.

The Crown C-D Series is built to go the distance

Outstanding Comfort and Control

Crown's C-D Series diesel pneumatic forklifts are equipped with features that can take your productivity to the next level without compromising safety, comfort or control. Enhanced comfort features reduce operator fatigue and strain even in demanding applications.

Intuitive Instrument Panel
A standard 5-inch full-color LCD screen provides a clear view of information and indicators important to the operator. A larger 7-inch screen is also available as an option. Changes to performance settings are simple and quick.

Multiple Seat Options
A suspension seat is standard. An optional Grammer premium suspension seat with armrests is also available.

High-Visibility Seat Belt
The standard high-visibility seat belt can be upgraded with an optional interlock that prevents lift truck operation when the belt is unfastened.

Spacious Legroom
The wide knee clearance and the positioning of the tilt cylinders off the floor plate provide plenty of legroom.

Excellent Visibility
The overhead guard design adds strength for safety and allows for a clear upward view for operators. The low front dashboard enhances sight lines for load handling operations.

- Hydraulic hoses and chains are arranged strategically near to the mast uprights, to provide a wide-open view
- Optional Tilt Position Assist
- Optional rear-view camera for hard cabin
- Large panoramic mirror assists the operator with a broad view of the rear working area
- Optional LED worklights shine brighter and last longer than traditional sealed beams or halogen lights

Modular Cabins (optional)
Four individually adaptable cabin layouts are available for protection in different conditions

- Roof only
- Roof and front windshield
- Roof, front windshield and rear window
- Hard cabin, also available with heat and air conditioning

Crown's Proven Service and Support

Our integrated approach to service provides an exceptional user experience to our customers – before, during and after the sale.

Fuel-Efficient Engine

The proven and powerful diesel engine provides the right blend of power, torque, reliability and economy. Its cast iron construction offers durability and is designed for smooth, quiet operation. It also complies with Tier 4 exhaust emission regulations.

Dual Element Air Cleaner with Pre-cleaner

- Standard pre-cleaner provides added protection in harsh environments
- On-board filter minder in instrument panel display indicates when filter replacement is needed

Oil-Cooled Disc Brakes

Fully enclosed, oil-cooled dual disc brake assemblies prevent contamination for exceptional stopping power and long life. The virtually maintenance-free discs are submerged in oil, keeping them cool and limiting wear.

Easy Configuration and Diagnostics

The instrument panel display allows for easy adjustment of performance modes as well as event code diagnostics to streamline configuration and maintenance.

Easy Radiator Check

The counterweight cover is simple to attach and detach, making it easy to check the radiator.

Easy to Access Components

Toolless panel removal and generous hood opening allows for quick checks and easy service access.

CROWN

crown.com

You can count on Crown to sell lift trucks designed for safe operation, but that's only part of the safety equation. Crown encourages safe operating practices through ongoing operator training, safety-focused supervision, maintenance and a safe working environment. Go to crown.com and view our safety section to learn more.

Because Crown is continually improving its products, specifications are subject to change without notice.
