

CROWN

DOCK & DOOR SOLUTIONS

One Stop Access To Increased Safety and Productivity

Safety and productivity shouldn't end at the loading dock. In fact, as the entry and exit point for all your materials, loading docks can be a key contributor to overall productivity. Exterior and interior doors can also provide facility and worker protection or help manage traffic and material flow. You need a supplier that understands your needs and can provide a comprehensive solution and long-term support.

One Source for a Complete Dock and Door Solution

From beginning to end, Crown offers the convenience and consistency of turnkey solutions from a single provider.

- Consultation and design
- Wide range of products with local inventory
- Product sourcing and integration for compatibility with existing equipment
- Complete project management from design, through permit documentation, concrete preparation and installation
- On-going maintenance and repair, including planned maintenance programs

The Doorway to Greater Dividends

Thoughtful dock and door design can produce many safety and productivity benefits.

- Safe, secure access control throughout the facility
- Improved material and facility traffic flow
- Better environmental control for improved employee comfort and safety
- Safe, flexible and secure dock access for pickup and delivery vehicles

Three Dimensions of Dock and Door Success

It takes a multi-pronged approach to provide dock and door solutions that fully address business needs today and tomorrow. Rely on Crown to conduct a comprehensive site survey and needs analysis that will identify the right products and support requirements to provide your operation with an effective, long-term solution.

Crown Expertise

Tap into Crown's deep knowledge of design and layout requirements for a wide variety of dock and door applications.

- Collaborative, on-site surveys and consultation
- Conceptual traffic flow designs for existing, new or growing operations
- Experience and flexibility to create solutions that meet your specific needs

Broad Product Options

Our wide range of quality products, accessories and aftermarket parts can help you ensure safe and secure dock access while optimizing environmental conditions for employees and traffic flow for vehicles of varying load heights.

- Sectional, rolling steel and high-speed doors, including fire and pest protection
- Dock levelers, seals and shelters
- Guard rails and impact barriers
- Trailer restraint systems
- Surface and pit-mounted scissor lifts
- High volume, low speed (HVLS) fans

Parts, Service and Support

Crown Dock & Door Solutions include all of the components necessary to ensure reliable and dependable operation of your installed systems for years to come.

- Extensive spare parts inventory
- Multi-state mobile service network
- Cost-effective planned maintenance programs
